EDUCATION

- **Bachelor of Technology in Computer Science and Engineering** 2022-26
Centurion University of Technology and Management, Bhubaneswar CGPA: 9.31
- **CBSE-12th Science** 2020-22
Carmel English Medium School, Khordha Percent: 96.2

EXPERIENCE

- **Freelance Software Developer** Feb- March 2025
Bitinfo Technology (Remote) Surat, Gujarat
 - Developed and deployed features for a real-estate platform using the MERN Stack.
 - Collaborated with cross-functional teams to design and build responsive UI components.
- **DSA Mentor Intern** May – June 2025
Centurion University (On-site) Bhubaneswar, Odisha
 - Guided fellow students in DSA through GFG LMS and doubt solving sessions.
 - Delivered structured content and peer mentoring as part of the placement training program.

PERSONAL PROJECTS

- **NextDeploy** - *Next.js, Express.js, Node.js AWS, Docker, Kafka, PostgreSQL, Clickhouse* NextDeploy
 - Architected a **scalable cloud** deployment platform enabling **production**-grade deployments for web applications.
 - Built a **webhook-driven CI/CD system**, for **automating** deployments cutting manual deployment overhead.
 - Implemented **real-time** log streaming and analytics handling **10K+ logs/sec** using Kafka → ClickHouse.
 - Adopted **Clerk for authentication** and **tenant isolation**, eliminating custom auth services and reducing operational and infrastructure overhead.
- **ExpenseTracker** – *React.js, Express.js, BullMQ, Redis, MongoDB* ExpenseTracker
 - Built personal finance app with **200+** currency support and **real-time exchange rates**.
 - Implemented **OTP**-based auth, **smart** threshold budget alerts using BullMQ, **personalized** preferences, and real-time **analytics** using **recharts**.
 - **Optimized** performance with Redis TTL + DB fallback achieving **75% faster** responses and **66% fewer** queries.
- **StudyNotion** – *React.js, Express.js, MongoDB, Razorpay, Gemini* StudyNotion
 - Developed **full-stack EdTech** platform with **role-based** dashboards (student/instructor/admin).
 - Integrated Razorpay **payment gateway** for secure course purchases.
 - Built AI-powered **chatbot** using Gemini for instant doubt resolution and media hosting through **Cloudinary**.

TECHNICAL SKILLS

- **Languages:** C++, Java, Python
- **Web/Frameworks:** React.js, Next.js, Node.js, Express.js, Angular, Spring Boot, Tailwind
- **Databases & Tools:** MongoDB, MySQL, PostgreSQL, Redis, GraphQL, Kafka, Docker, AWS, Git, Postman
- **Core Skills:** DSA (Solved 600+ problems), OS, OOPS, DBMS, System Design
- **Soft Skills:** Analytical thinking, Time management, Growth Mindset

EXTRA-CURRICULAR

- **Hackathons:**
Innothan – IIIT Bhubaneswar (2025)
CodHer – Anna University (2025)
- **Open Source:** GSSoc Ext. 2024
